# Background

Established on 2015, Maximo Business Solutions, Incorporated is a Philippine-based consulting and delivery services organization that is entirely focused and wholly committed on providing comprehensive project implementation and support of the IBM Maximo Asset Management solution suite. MBS is a recognized IBM business partner in the Philippines with a Gold partnership status.

Over the years, MBS has continually matured and has taken on providing world-class Maximo services through its partner network in ASEAN and in other parts of the world through Comm-IT Consultancy Services and Amosa Group. MBS, Comm-IT, and Amosa Group have a dedicated pool of professionals with more than 100+ years of combined Maximo and EAM experience that has been serving our clients with the primary goal of helping them succeed in their EAM journey while maximizing their Maximo investment. This mission statement allows MBS to take it even further by:

- creating value for our customers on improving asset and operational performance through both our horizontal and vertical industry experiences;
- delivering a seamless integration between people, process, data, and technology; and
- delivering above and beyond our commitments by prioritizing client needs and satisfaction

Presently, we are the largest IBM Maximo-focused business partner in ASEAN with a staff strength of more than seventy (70) certified professionals – and is continuously growing.

# Qualifications and Credentials

MBS is focused on delivering an exceptional Maximo EAM engagement by:

- fully understanding the end-to-end requirements and needs,
- ensuring that the proposed approach fits the desired state of the organization and the system,
- bringing in industry insights and knowledge,
- bringing in resources with the right experience at the right time, and
- maintaining clear and continuous communications throughout the support engagement.

MBS' knowledge-based service combines the best of consulting and technology support through a holistic approach that fits the desired operational outcomes as well as to complement your organizational and system landscape, while maintaining the system's integrity by adopting to MBS' accumulated Maximo system support best practices and strategies. This approach has allowed MBS' customers to take advantage of Maximo's strength as an industry de facto platform for Enterprise Asset Management.

MBS' breadth and depth of experience encompasses the sectors of Food Manufacturing, Telecommunications, Property and Building Management, Tollway Management, Transportation, and Power and Utilities. Approximately, the Power and Utilities industry makes up 90 percent of the overall local Maximo install-base where majority is an MBS customer – from full project implementation, to consulting services, to system upgrades and migrations, to trainings, and other various support services.

# Track Record

Being the largest IBM Maximo implementer and with a recognized IBM Gold Partner status in ASEAN, the group has accumulated vast experience in implementing and maintaining the IBM Maximo product suite in numerous Power and Utility companies. Overall, we have over fifty (50+) customers across the region involving end-to-end implementations, application support services, and system upgrade engagements.
